

When you are creating a teacher, in their profile you can see the question about the price of the trial lesson, but there is no button for whether or not you want to give a trial lesson, as there is in the teacher's profile once they have been created. It should appear in the creation of the profile as well, since the question about the price of the lessons appears.

The filters in this section do not work. The newest teachers appear at the bottom of the list. If you want to learn German, Olga is a German teacher and does not appear if I choose her in the filter.

In "Tutor is From", there is no Spain (or "España"), which is what I put in the profile of the test teacher who teaches Spanish.

This used to work :_(

Income system (from the teacher) and payment system (from the administrator-company)

We need to know how much a teacher earns in a month to make the entry, and then that amount should go back to 0 to recalculate how much he/she will earn next month.

The amounts a teacher earns should be available in a list, in case of complaints (from the administrator's point of view). Right now it is set to see all earnings, but that is not functional if we want to pay teachers later.

In addition to the Earnings section, you should also be able to see the negative amounts that mean the return of some money, as well as the negative payments. Right now there is a lot of information but it is not ordered and does not have much functional value.

From the teacher's point of view, in the Earnings section, when we send their money monthly, the amount in negative should appear (I don't know if this already happens, because we haven't sent any money, but I guess not, because in the administrator section, there is no option for that).

If all this is too confusing, we can meet one day on Skype and I can show you how it works in the competition through a teacher profile (mine).

The screenshot shows a payment interface for 'italki'. On the left, there's a section for 'italki Balance / \$ 0.00 USD' with a note that the balance will be automatically deducted. Below this is a 'Promo Code' field with a 'REDEEM' button. Further down is a 'Coupon' field with a right arrow. The 'Payment Methods' section shows a dropdown for 'Billing Country/Region' set to 'Spain'. Below this are four payment options: 'Debit / credit card' (with an 'ADD A NEW CARD' link), 'PayPal' (selected with a blue dot), 'Skrill Rapid Transfer (Online Bank Transfer)', and 'Skrill eWallet'. At the bottom is a 'Bank Transfer' option. On the right, there's a user profile for 'Ruky' with a profile picture and the text 'Conversation Practice' and 'See the details'. Below the profile is a summary of charges: 'Sub-total \$ 10.00 USD', 'Processing fee \$ 0.67 USD', and 'Total \$ 10.67 USD' (with 'Estimated EUR 9.25' below it). A red button labeled 'PAY \$10.67 USD' is at the bottom of this section. A small disclaimer at the bottom right states: 'All currency conversions are estimates and may vary. Your final payment will be made in USD. Purchases can only be refunded for italki Credits that are directly transferred to your italki student Wallet. Cash refund not supported.'

One more thing. When students pay by PayPal or Stripe, they will be charged with a % to the total amount for "Processing fee", the % of PayPal will be 4.5%, but I don't know yet the % of Stripe (I send a screenshot of the competition).
