This student is new (I deleted the previous one and created it again). I bought a package of lessons (it's the one worth 100 dollars), but what is marked in red? I haven't bought anything for \$70.

Please select at least two consecutive time slots

Book Teacher

I have booked from 13:00 to 14:00, the booking is recorded for the teacher and in the Administrator panel, but in the calendar, the 14:00 slot is still free and should be

The Status is shown as completed because the student has booked all his lessons, but the teacher has cancelled all the lessons and they have been returned to his package. It should not show as completed. Also, once the lessons have been returned, they cannot be rebooked.

Book Teacher

Now the student lives in a -6 time zone, has chosen 90 minute lessons, and as you can see the calendar goes crazy and shows very strange time slots. It only fails in 90 minute classes.

As you can see, there are two classes on the same day, at the same time. Well, this has happened because the student has booked three classes, one from 11:00 to 12:00, one from 12:00 to 13:00 and one from 13:00 to 14:00. The teacher has accepted the first one, but has requested a change in the timetable for the second one. When he did so, in the calendar, the teacher was allowed to choose the time slot from 11:00 to 12:00 on Wednesday, and that cannot be, as there is a class booked. This always happens with any request for a change of time, it is as if the teacher's calendar does not record the classes that the students have booked.

On the other hand, as you can see, in the time change, there is no information about "Note" or "Channel".

```
220         "view" => "emails.tutor.booking_request_updated",
221         "data" => get_defined_vars(),
222         "to"   => $tutor_email,
223         "subject" => "Booking Time Table Change Accepted",
224     );
225
226     return redirect()->back()->with("success", "Booking Time Table Change Accepted Successfully");
227 }
228 else
229 {
230     $booking = BookingRequest::find($id);
231     $booking->time_request = '3';
232     $booking->refund_status = "2";
233     $booking->status = "2";
234     $booking->save();
235 }
```

This occurs when the pupil refuses the teacher's request for a change of time. When this happens, the "Requests" in the list disappear.
