There are some mistakes here (in the filter):

1- We choose a price in the filter. Teachers from 80 euros.

2- It shows me these teachers (fine), but the filter for prices remains with a maximum of 80 euros, and I cannot search, for example, for new teachers of 100 euros because the maximum of the filter, now, is 80 euros.

We have refunded money to the student from the Administration panel and two errors have occurred:

1) He has not received any message communicating it.

2) In his payment method "Wallet" is at 0, when he should have both amounts returned (a total of 80 dollars).
